

Linear System High Table

“The Linear System Series places people at its center, being a place to meet, to collaborate or to work in focused solitude. The design process was about creating a system that was made for intimately welcoming atmospheres, enhanced by the expression and functionality of its lighting and accessories. With its warm materiality and modern expression, the Linear System Series brings feelings of home into larger spaces to give the user a sense of belonging, even if being there only for a little while. The extensive selection of lighting and accessories means that the Linear System Series can be configured and reshuffled for any purpose of the modern workplace as well as hospitality settings and public areas, marrying the ideas of aesthetics and function into one.”

Description	The Linear System High Table is designed for flexibility and spontaneity. Ideal for short meetings, intimate work settings, bar, dining, and kitchen areas. The table's legs, shaped into half-circles and seamlessly joined with the tabletop, create a light and airy appearance. A metal stretcher bar underneath adds stability and refines its overall design.

Linear System High Table

Material

Tabletop in Oak Veneer, Black version in Ash Veneer or Black Nanolaminate.

Black Nanolaminate has an ABS edge. Multiple tabletop finishes cannot be mixed in a linear system configuration.

The table frame is veneered plywood, and the legs are solid oak. Felt glides included.

Oak Veneer color variations: The Linear System Series oak veneer tabletops use high-quality mix-matched veneer to reduce differences in the visual appearance from tabletop to tabletop. However, wood is a natural material, meaning slight variations can occur from table to table.

Lacquered Oak: Oak is traditionally a Scandinavian material. It is durable against factors such as water and fungi and has a high level of strength, giving it long-lasting properties suitable for furniture.

Nanolaminate: Nanolaminate is a fully dense, ultra-fine-grained solid that exhibits a high concentration of interface defects. It is an innovative material with unique features such as low light reflexivity, an extremely matt surface, anti-fingerprints, and anti-bacterial properties. The nanolaminate surface is also resistant to scratches, dry heat, and acid solvents.

ABS: ABS is a common thermoplastic polymer. Within our collection, ABS is used on the edges of tables for an elegant expression with durable character.

Linear System High Table W110/H95 & W110/H105 cm: Table frame is made from FSC™-certified (FSC-C028824) wood. Comes with a powder-coated aluminum stretcher.

Cleaning & Care

Wood and Veneer Surfaces: Clean the table with a damp cloth. If necessary, only use a mild detergent or washing-up liquid that is not concentrated. Always wipe with a dry cloth afterward. Liquid, grease, etc., should be removed immediately to minimize the risk of stains and marks.

Laminate Surface: Clean the table with a damp cloth. If necessary, use a mild detergent or washing-up liquid, not concentrated. Always wipe with a dry cloth afterward. Liquids, grease, etc., should be removed straight away to minimize the risk of stains and marks.

Nano Laminate: Treat the surface with a melamine sponge available in hardware stores to reduce minor scratches.

Option B — Create your own configuration

STEP 1. TABLES

A)

A configuration must always have End Modules in each end.

Start by defining the total length of your desired configuration, then select two table ends.

Note

Different finishes of tabletops cannot be mixed as they might vary in thickness.

Linear System End Module — 240 cm / 94.5"

Height — 74 cm / 29.1";
Width — 146,9 cm / 57.8"

Height - 105 cm / 41.4"
Width - 110 cm / 43.3"
Length - 120 cm / 47.2"
No of Persons - 2

B)

Next, add the second, and final, End Module or your desired number of Middle Modules, only available in 240 cm / 94.5" length but in 2 different widths (110 cm / 43.3" and 142 cm / 55.9").

Note

Please note that it is not possible to connect more than two End Modules.

Linear System Middle Module — 240 cm / 94.5"

Width — 110 cm / 43.3";
142 cm / 55.9"
Length — 240 cm / 94.5"
No of Persons — 4-6

C)

Next, you must order 1 set of Connecting Legs every time two modules are connected.

Note

95cm / 37.4" and 105cm / 41.4" Connecting Legs can only be connected to 110cm / 43.3" width tabletops (not to 142 cm/55.9" width tabletops).

Linear System Connecting Legs

Height — 74 cm / 29.1"
